PROJECTS

Towards Blockchain Based Secure Storage and Trusted Data Sharing Scheme for IoT Environment Jan 2025 - Apr 2025 Developed and implemented a blockchain-based secure storage system to ensure data integrity and privacy in IoT environments. Designed and optimized a trusted data-sharing framework leveraging blockchain to enhance securityand transparency across IoT devices. Collaborated with cross-functional teams to integrate blockchain technology with IoT solutions, addressing challenges related to data security and scalability. This project utilizes blockchain technology to enhance security and trust in IoT environments.
